Dear Mr. Kerby:

Your notice to conduct mining related operations on mining claims, UMC serial numbers, 279003 and 279004 located in SW 1/4, Sec. 25, T. 12 S., R. 2 1/2 W., SLBM was received on October 26, 1992. This letter is pursuant to your conversation with Rody Cox on October 30th when he notified you that Ash Grove's notice was accepted.

Your notice has been assigned case file number UT-054-93-02N. Please use this number in any future correspondence concerning this notice. Your previous notice for mining related operations, serial number UT-054-91-17N, has been administratively closed and combined into this notice.

We are completing the Environmental Assessment (EA) for Ash Grove's submitted mine plan. Any comments or suggestions you may have would be appreciated. Final approval of the EA will be dependant on review and comments by the Area Manager and NEPA document coordinators. On November 18, 1992, Nancy Shearin, BLM Archaeologist, completed the archaeological clearance inspection for the proposed road. This clearance will be attached to the final EA.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (DOGM); therefore, you will not have to file this notice with them.

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.
